HONOLULU— Soon over 200 million people in China will be introduced to JAIMS in their homes. Through the efforts of CMC Consulting Group Inc., the Documentary Channel of Shanghai TV sent a crew to feature JAIMS as part of a three-episode documentary entitled “Hawaii’s China Connection.”

The documentary, which will air in June, will present a Chinese perspective of Hawai‘i businesses to viewers in Shanghai.

JAIMS President Glenn Miyataki, who was interviewed for the piece, believed it was a positive experience for both the Shanghai TV crew and JAIMS.

“The crew was very excited about the story they are doing on JAIMS and were very impressed with our place and our students,” Miyataki said.

Pacific Business News covered the television shoot in their **February 27, 2004 edition** complete with photos of JAIMS students.
